PRINCIPAL'S MESSAGE

A WARM WELCOME BACK TO SCHOOL

I hope that you have all had a safe and relaxing early "summer break" and are feeling ready for the resumption of face-to-face lessons next week. The past two months were indisputably in a state of disarray when the city was overwhelmed by the fifth wave of Covid-19. Intermittency is an important lesson for us to learn because we are often faced with changes that aren't necessarily good or bad but natural and expected. Can you remember the theme of our Christian Union this year? "Rejoice in Hope". "Be joyful in hope, patient in affliction, faithful in prayer." Romans 12:12. We must value our courage to navigate life's ebbs and flows with flexibility and positivity. I am earnestly awaiting your return to school for physical learning on the campus.

I watched the production of our Chinese Drama Team twice during the break and was hugely impressed by the originality, creativity, and enthusiasm of Jubileans transcending the geographical boundaries and putting the show online. At the same time, I believe many of our other teams such as the Chinese and English Debating teams, the STEM Society and others also had fulfilling experiences in the past months. When you return to campus, I look forward to seeing your participation in your social and emotional lives, which you have missed out on during the pandemic.

We will miss Mr. Choi Yeuk Lam and Ms. Poon Dik See Daisy after mid-May as they have decided to leave Hong Kong. On behalf of all Jubileans, we thank them for their dedication and exceptional effort all these years. We wish them a very happy and wonderful life. You will be missed, Mr. Choi and Ms. Poon.

F.6 FAREWELL ASSEMBLY

Time passes imperceptibly. Bidding goodbyes is always hard for all of us. 11th March is a special day when we gathered to bid goodbye to our graduates of 2022. In the morning, all F6 students and senior form teachers enter the online Farewell Assembly. We took a group photo and the assembly started.

The school invited Dr. Chui Hong Sheung as the assembly's guest speaker. Dr. Chui gave a lot of tips to F6 students. He used the abbreviation "ABCDE" to present the tips. A represents Aim, B represents Binding Contract and Better Performance, C represents Confidence, D represents Determination, and E represents Effort, Emotion and Effectiveness. He reminded F6 students that their use of time should be the most efficient in order to put full effort into revision. Dr. Chui also shared his experiences about his F6 life and the ways he came through life obstacles. Thank you for giving useful advice to F6 students!

After the speech of Dr. Chui, we watched a cheering video prepared by the Guidance Committee for F.6 students. The video includes encouraging messages from our teachers, school-mates and the social workers. At the end of the video, there is a special guest, our alumni, 193 Denis Kwok! That was a big surprise to F.6 students. Big thanks to the Guidance Committee for putting so much effort into making this cheering video!

These few years, graduates' schedules and emotions are affected by the pandemic. Due to school suspensions and postponements of exams, these years have been difficult for them. F.6 students, stay strong and healthy! We look forward to hearing about your future successes, and you will always be part of the Jubilean family. Wish you all the best for your future endeavors!

ONLINE ACTIVITY DAY

Even though the COVID-19 pandemic has forced all of us to start the “Summer Holiday” in March, the school has made good use of this chance to enrich our learning through watching a film on the last day before the vacation.

At the beginning of the event, the teacher in charge, Mr. Choi, asked us three questions about psychology which most of us were not able to answer correctly. Then, with these questions in our mind, we soon began to watch the movie, “Inside Out”.

This film has taught us that there are many emotions inside us, and every single emotion determines our beings. In the movie, inside the main character Riley’s mind, joy always attempts to control sadness, not allowing it to be expressed. However, while Riley was growing up, many other crises started to appear around her. Joy began to understand that sometimes we should not hide our feelings, no matter if it is positive or negative. In fact, we should express them, and accept that even these negative emotions are still part of us.

After watching this thought-provoking movie, we then enter the Class Teacher Period, where students discuss the film as well as their feelings. Most of us learnt from the movie that perhaps it will be best for us to let go and express all of our feelings. However, unfortunately, we also see that given the pandemic around us and the political environment, many Jubileans are feeling depressed, worried, or even angry currently. Let’s wish that we can be able to express these feelings in appropriate ways like how Riley does inside the film. And may we all walk through the hardships together with positive values and attitudes.
